# USE OF SCHOOL FACILITIES

## Purpose
The Board recognizes that although the primary purpose of the school buildings, facilities and property is to provide students with an appropriate learning environment, the Board may make school facilities available to individuals and community groups in accordance with this policy, provided the use does not interfere with the educational program of the schools.

The Board believes that the public shall have the opportunity to use its school facilities beyond legal requirements by responsible groups or individuals.

## Authority
It shall be the policy of the Board to permit the use of school facilities by responsible groups located within the school district.

School organizations such as clubs and athletic teams shall be permitted to use the district's school facilities free of rental or charge. All of the various functions must have prior approval of the Superintendent or his/her designee. All other organizations must have prior approval of the Board for use of district facilities.

In weighing competing interests for the use of facilities, the Board will give priority in the following order:

1. Uses and groups directly related to the schools and the operations of the schools including student and teacher groups. Class A

2. Uses and organizations indirectly to the schools including Parent Organizations, city area athletic organizations, R.A.C.C., Reading-Muhlenberg Career and Technology Center, the Reading Recreation Commission and other School Districts. (Limited to hours when custodians are on duty except for School Board exceptions.) Class B

3. Community organizations formed for charitable, civic, social or educational purposes. Class C

4. All other departments or agencies of the municipal government. Class D
5. Community church groups. Class E

6. Community political groups. Class F

7. Other governmental agencies and private citizens for private affairs. Nonprofit. Class G

8. Private profit making organizations and the City of Reading. Class H

The use of school facilities shall not be granted for any purpose which is prohibited by law.

The facilities and grounds office shall establish and maintain a schedule of fees for the use of school facilities by approved groups, a copy of which is attached to this policy. The rate schedule will be reviewed by the board of directors annually.

The Superintendent shall develop procedures for the granting of permission to use school facilities and shall promulgate rules and regulations for such use which shall include:

1. Each user (Classes C, E, F, G, and H) shall present evidence of the purchase of organizational liability insurance in the amount of $1,000,000.00. Such liability insurance shall name the district as additional insured. Each user will provide such policy coverage. This includes rental of swimming pool and fields.

2. All bills for facility and ground usage will be sent out by the business office. Buildings and Grounds will send the information necessary to prepare the billing to the business office after the facility usage has occurred. The business office will then issue the billing and follow-up to collect payment.

3. Use of school equipment in conjunction with the use of school facilities must be specifically requested in writing and may be granted by the procedure by which permission to use facilities is granted. The users of school equipment must accept liability for any damage or loss to such equipment that occurs while it is in their use. Where rules so specify, no item of equipment may be used except by qualified operator.
The Board shall approve a schedule of fees for the use of school facilities based upon the following factors:

a. The use of school facilities for activities related to the educational program and district operations shall be without cost to the users.

b. All (other) organizations or persons granted the use of schools shall assume the scheduled fee.

c. Swimming pool rental payments occur at the time of the rental.

d. Rental payments for fields.

The cost for other activities for revenue production or community services not identified will be determined by the administration.
